Profile

Self-taught frontend web developer with over 5+ years of experience in handling business logic in web. With my skillsets in Full stack web development in MERN stack including Next.js, I have good understanding of on page SEO and web accessibility **"Making Web accessible to all"**.

I learnt web3 development, Basics of solidity and ERCs/EIPs, Which helped me in building [Alloc8](#), [Meowfi](#), [DAOstruct](#) and various projects from [clients or experimental's](#)

Experience

Founder • [Lumore](#) (Rebel Ecosystem PVT. LTD.)

Mar 2025 – Present

- Building lumore to solve the problem of urban loneliness.
- I Built a PWA app (MVP) of lumore now we have 55+ users, We are redefining how we connect.
- Registered my first company, Created amazing pitch deck for it. looking forward to raise funds, Till then growing organically
- In this process I learnt a lot about Tech, and Business side and believe me its not simple.
- Now Building Android & IOS App using react Native

Founding Engineer • [Alloc8](#) & [MeowFi](#)

Feb 2024 – May 2025

- As a founding engineer, I built the complete frontend and Web3 integration for the MVPs of Alloc8 and MeowFi from scratch.
- Alloc8 : A platform which use Safe protocol to create a credit account on-chain, and using this credit account user can take 3x-10x leverage and use it around any defi products Trade/Point farming/Yield farming. Basically we were building an on-chain credit layer.
- MeowFi : An addon to Alloc8, Meowfi AI agent is trained to find the best yield strategy on Uniswap, Camelot and Aerodrome (chain : Base & Arbitrum) and my responsibility was to built a chat interface . connect with these credit account, create and send this transaction to deposit into this Liquidity Pools and manage this position through dashboard

SDE – I • [ZOWORLD](#) (Zostel)

Nov 2023 – Feb 2024

- Built and maintained internal admin & housekeeping dashboards using React, Next.js, and TypeScript.
- Developed a React Native Android TV app from scratch and delivered a working MVP.
- Integrated IoT devices (e.g., door controls) via backend APIs and enabled Web3 wallet support using smart contracts.
- Collaborated with backend, design, and product teams to deliver cross-platform features and UI/UX improvements.

Skills

- Problem Solving
- Node.js, Javascript & Typescript
- Frontend Development
- HTML, CSS
- REST APIs
- MongoDB
- Express.js, GraphQL queries
- Good understanding of web3 tech.
- Solidity, Ethers.js, viem, foundry, EVM.
- Git/Github & version control

Tools/Software

- Uniswap SDK's
- Wagmi.sh
- Subgraph
- MongoDB
- Tanstack react query
- Next.js React.js, Tailwind css

Certifications

- [Responsive Web Design:](#)
- [JavaScript Algorithms and Data Structures](#)
- [Front End Development Libraries](#)
- [Data Visualization](#)
- [The Complete 2023 Web Development Bootcamp](#) – Dr. Angela Yu
- [Linux for Absolute Beginners!](#)
- [Linux BASH Shell Terminal Command Basics](#)
- [Python : Master Programming and Development with 15 Projects](#)

FRONTEND DEVELOPER • DAOstruct

Mar 2023 – Nov 2023

- Led frontend development of the startup's MVP using React and Next.js, ensuring responsive UI and clean architecture.
- Improved on-page SEO and web performance for better visibility and faster load times.
- Integrated Web3 features like wallet connections, smart contract interactions, Snapshot DAO's and push protocol messaging.
- Represented the team at Web3 events and meetups, expanding ecosystem understanding.
- Took initiative in project management, shaping product direction as a founding team member.

SDE I – FRONTEND • TRUEMEDS

Nov 2022 – Mar 2023

- Contributed to the development of admin and management portals for a digital pharmacy platform.
- Strengthened expertise in React.js and Redux, focusing on clean UI and maintainable state management.
- Collaborated with cross-functional teams to deliver features aligned with internal operational workflows.

JR. FRONTEND DEVELOPER • TONIC WORLDWIDE

Aug 2021 – Oct 2022

- Delivered 100+ emailers and multiple web projects using HTML, CSS, Bootstrap, jQuery, and JavaScript.
- Gained hands-on experience with blogging platforms, Photoshop, and phpMyAdmin.
- Cleaned up legacy PHP/MySQL code while building confidence as a self-taught developer in a professional environment.

Education

University Of Mumbai, Mumbai, Maharashtra

Bachelor of Science in Mathematics

- V.E.S. College of Arts, Science & Commerce
- Graduated: May 2021
- Relevant coursework: Tech & Social Media Head (NSS : 2018-20)
- CGPA: 8.4

Open source contributions

2023 POAP.GALLERY CONTRIBUTOR

open source contribution in poap.gallery website to fix a bug, that was causing blank page website error (crash)

2023 ETHEREUM.ORG CONTRIBUTOR

open source contribution in ethereum.org AKA Ethereum Foundation website to fix bugs in their documentation and other multiple changes.
